NEW DRAFT ORDERS COMING SHORTLY

LOCAL BOARDS RECEIVE DRAFT INSTRUCTIONS.

Local draft boards Thursday received instructions from Nashville, in line with the dispatches carried Wednesday to the effect that registrants up to 45 would continue to be sent out for questioning and examination, but not filled out questionnaires, are asked to return them in blank form to local boards.

WASHINGTON, Nov. 14.—New orders for the operation of the national machinery of draft boards are to be issued shortly by Provost Marshall Gen. Crowder. The new regulations in connection with the classification of 18-year-old registrants is likely to be revised, but the results obtained will be of little value in six months on account of the physical changes undergone by the young men.

There are also 400,000 Greeks and Italians and smaller numbers of other nationalities in the United States now held in class five as aliens, whom draft treaties recently negotiated make liable to reclassification unless regulations are annulled. Boards probably will be relieved promptly of the necessity for carrying out the law in this respect.

District boards which consider appeals and industrial conscription only started their work on the 19 to 27 class, though the local boards are nearly through with dependency classification. Orders are being framed to relieve them and the registrants affected.
